

SURESH GUDIBANDA

Bangalore • 8886316963 • gudibandasuresh3@gmail.com • linkedin.com/in/suresh-gudibanda-77b5bb22a

Software Engineer with **2.9 years** of experience in **Java, Spring Boot, Microservices, Kafka, PostgreSQL**, and full-stack development using **JavaScript and React**. MCA (2022) graduate focused on building scalable, high-performance applications.

SKILLS

- **Backend:** Java 8/11/17, Advanced Java, Hibernate, Spring Boot, Spring Data JPA, Redis, Keycloak, Kafka, Microservices
- **Frontend:** HTML, CSS, JavaScript, React
- **Databases:** SQL, PostgreSQL, NoSQL
- **Testing:** Manual Testing, Unit Testing
- **Cloud & DevOps:** GitLab CI/CD, AWS (EC2, S3), Docker, Kubernetes Dashboard, Elasticsearch & Kibana

WORK EXPERIENCE

Integra Micro Systems Pvt Ltd • September 2023 - Present

(IFPL) is an NBFC-P2P that offers peer-to-peer (P2P) lending in India through a web and mobile platform, enabling loan facilitation and related services in a virtual P2P lending marketplace.

Software Engineer • Bangalore • Full-time

- Developed and maintained a **dedicated integration layer** to connect the **P2P Lending Platform (P2PL)** with the **ONDC Buyer App Middleware**, ensuring reliable **API-based communication** for borrower loan operations.
- **Built** backend services for user registration, loan requests, repayments, and IGM ticket APIs.
- **Implemented Kafka-based event-driven architecture** for **unsolicited API calls** from the **P2P Lending Platform (P2PL)** to **ONDC middleware**, enabling **asynchronous processing** of **loan status updates**, **repayments**, and **IGM ticket events**.
- Developed a **Kafka-based** scheduler-driven **EMI reminder** microservice for automated **Email** and **SMS** notifications.
- Developed **React** components for **KYC**, **E-Mandate**, and **Loan-Agreement** modules, integrating backend data to enable dynamic content rendering and document preview.
- Designed **Supplier module APIs** for the P2P Lending (P2PL) system to support **purchase financing** within the loan-raising workflow.
- Implemented Agent and Customer **Video KYC** module with liveness detection and **maker-checker** verification.
- Improved backend API and **database** efficiency, performed distributed system **debugging** and code reviews.
- **Proficient** in Java 8/11/17 development with **Gradle**, focusing on build **optimization**, dependency management, and modular project structure.

Security & Authentication :

- **Authentication & Authorization** Experienced with **Keycloak** for implementing secure authentication and authorization of users.
- **Permissions & Roles** Implemented **role-based access control** and **JWT-based token security** for secure API access.

Testing & QA Tools :

- Hands-on experience with **Manual, Unit, and API testing**, including test case design and execution.
- **Validated backend services and RESTful APIs** to ensure functional correctness and reliability.

DevOps & Monitoring :

- **GitLab CI/CD:** Hands-on with pipelines for **on-prem deployments (UAT, Staging, Prod)** and **microservices deployment**.
- **Monitoring & Observability:** Familiar with **Kubernetes Dashboard** and **Elasticsearch monitoring via Kibana**.

Agile Methodology :

- Familiar with **Agile practices**, including **sprint planning**, **daily stand-ups**, and ensuring **continuous delivery and team collaboration**.

LLM Prompt Engineering

- Experience in prompt engineering and agent-based workflows to enhance backend and frontend application workflows.

EDUCATION

MCA in Computer Applications

Dravidian University • Kuppam, Andhra Pradesh • GPA: 80 • October 2020 - July 2022
